hello@chimpipi.com

Live demo: hesd-find-my-school.vercel.app

Find My School — what you get

Find My School lets parents and district staff look up the assigned elementary and junior high by typing a home address or tapping the map. It cuts enrollment-season phone traffic and puts a clean, mobile-first answer on your website — live in weeks, not a multi-month GIS consulting project.

SETUP

\$3,500

One-time

Branding · school list · certified boundary import · embed · training · UAT

ANNUAL HOST

\$1,800

/ year

Hosting · support · uptime · 1–2 boundary updates · minor copy tweaks

YEAR 1 TOTAL

\$5,300

All-in

Setup + first year host.
Founding-district range
\$4,000–\$7,500.

Included in the subscription

- District-branded public page (your logo, colors, and domain or embed)
- Address autocomplete → elementary + junior high assignment (HESD is TK–8)
- Map view with school pins and outside-district messaging
- Spanish UI toggle available as add-on or included when quoted
- Boundary / school updates: up to 2 free per year within reasonable scope
- Secure hosting on Vercel with private source under your delivery team

Not included (clear scope)

- SIS / Aeries deep integration (quote separately)
- Bus routing or transportation optimization
- Unlimited redistricting scenarios (SchoolSite Pro—class demography)
- Official assignment accuracy without district-certified boundary data

Choose desired options

OPTION	PRICING
☐ One (1) year Find My School subscription	\$1,800 / annually
☐ Data setup & application onboarding (HESD sample)	\$3,500 one-time
☐ Spanish language toggle + bilingual parent copy	+\$600 one-time
☐ Staff training workshop (remote, 60–90 min)	+\$350 one-time
GRAND TOTAL (typical founding package)	\$5,300 year 1

Hueneme sample — why this district

Gap	No public address → school locator on hueneme.org (true F_not_found prospect)
Schools	9 neighborhood elementaries + 2 junior highs (Blackstock & E. O. Green)
Demo	https://hesd-find-my-school.vercel.app — private Vercel project
Data	CDE district outer polygon + school sites loaded; official zones need district GIS
Contact angle	Student Support / Registration — enrollment season call reduction

DATA & ACCURACY

Chimpipi implements boundaries and school lists supplied or certified by the district. Until HESD provides official attendance polygons or street tables, the public demo uses illustrative zones and is labeled as a proof of concept — not official enrollment. Production launch requires district-owned boundary data. We will never claim assignments are board-certified without that source of truth.

Find My School

PROOF OF CONCEPT - DEMO ONLY

⚠ CAUTION — DEMO / PROOF OF CONCEPT

This site is a *prototype* so families and district staff can see how a modern school locator *would* work. It is **NOT** an official Hueneme Elementary School District enrollment tool.

- Map colors are **ILLUSTRATIVE** zones (auto-generated), not Board-approved attendance boundaries.
- Do **NOT** use results for enrollment, transfers, or school assignment decisions.
- For official placement, contact HESD Registration / Student Support at [\(805\) 488-3558](tel:805-488-3558) | hueneme.org/registration

RESIDENCE ADDRESS

Enter address and city

Check

Enter a home address to try the demo.

Results are for illustration only. Try Port Hueneme / south Oxnard, or 5527 Saviers Rd, Oxnard (Board-public Haycox seed).

Billing & terms

- Flat-fee structure; invoice on SOW signature (setup) and annual renewal date (host).
- Proposal valid 90 days. Annual host may adjust with 30-day written notice at renewal.
- District retains ownership of boundary and school data; Chimpipi retains product IP.
- Either party may non-renew with 30 days notice before term end.

Acceptance

District authorized signature
